Erdős, Pál
On some applications of probability methods to function theory and on some extremal properties of polynomials (In English)
Sovremen. Probl. Teor. Analit. Funktsij, Mezhdunarod. Konf. Teor. Analit. Funktsij, Erevan 1965, 359-362 (1966).

Some results and conjectures concerning Sidon sequences. Zygmund sequences, extremal properties of polynomials and other related topics are collected in the paper.

M.Kinukawa

Classification:
30C10 Polynomials (one complex variable)
30C75 Extremal problems for (quasi-)conformal mappings, other methods
