ERRATUM TO "REMARKS ON BOUNDED SOLUTIONS FOR SOME NONAUTONOMOUS ODE"

by Zdzisław Dzedzej

There is a mistake in the formulation of Theorem 4 ([**1**]) pointed out by R. Ortega. The proper version should be as follows

THEOREM 4. *If $k < l$, the equation* (1) *has a nontrivial bounded solution.*

The last sentence in the proof of Theorem 4 should be removed, since it is false. The following simple example

$$n = 1, A_+ = 2, A_- = -2, l = 0, k = 1$$

shows that the theorem is not symmetric in time.
